

COLLABORATIVE ADMISSION AGREEMENT

Holyoke Community College (MA) and Smith College (MA)

Transfer students from Holyoke Community College are encouraged to apply to Smith College, a private, competitive, liberal arts college for women located in western Massachusetts. In order to make the transition as smooth as possible, this Collaborative Admission Agreement details guidelines for admission and credit.

This Collaborative Admission Agreement serves as an advising tool by detailing some general information about transferring and by providing a list of courses which are transferable from Holyoke Community College to Smith. The application fee is waived for traditional transfer students and Ada Comstock Scholars applying to Smith from Holyoke Community College.

GRADE POINT AVERAGE Students likely to be admitted normally have earned a GPA of 3.3 or better in the courses listed in this agreement. A student's previous GPA does not transfer with her; she will start a new Smith GPA once enrolled.

CREDIT Smith has no core curriculum and, with the exception of one writing course, there are no specific courses to be taken toward the degree. Consequently, the transfer of credit is much simpler for entering transfers. A maximum of 64 credits (the equivalent of 2 full years' worth) is transferable. In order to earn a Smith degree, transfer students must spend at least two years, one of which must be the junior or senior year, in Northampton and accumulate at least 64 credits. Students are required to complete a major and, in addition, earn at least 64 credits outside of the major department. Credits transferred may fulfill major and non-major credit. Credit toward the major is granted at the discretion of the department. Students wishing to enter Smith as juniors should consult the catalog to make certain that they have taken the proper prerequisites for upper-division major courses. Grades of C and above are acceptable. The current catalog details specific requirements for major departments. No credit is awarded for independent study unless approved by the Smith College department concerned (students must submit a detailed description of completed work to the department chair at Smith for review).

TRADITIONAL ADMISSION Smith enrolls over 100 traditional transfer students each year. Transfers may enter in both January and September. The deadline for January admission is November 15. For September admission, decisions are made on a "rolling" basis. Students who wish to apply for aid for September enrollment are encouraged to apply by the preferred filing date of February 1, although the final application deadline is June 1. The application fee is waived for traditional transfer students applying to Smith from Holyoke Community College.

SMITH COLLEGE

THE ADA COMSTOCK SCHOLARS PROGRAM Women who are at least 24 years old *or* are veterans *or* have a dependent other than a spouse must apply to the college through this program. Spaces are limited and students are admitted for fall enrollment only; most successful candidates have, on average, 50 transferable credits. The program offers assistance with re-entry, childcare and housing options in addition to academic advising. Interested students are encouraged to obtain more information by writing to: The Ada Comstock Scholars Program, Smith College, Northampton, MA 01063 or comstock@smith.edu.

FINANCIAL AID Smith College awards financial aid on the basis of documented need. In fact, since 1984 the College has been able to meet the documented need of all admitted transfers and will make every effort to continue this level of support. In addition, Smith awards three Phi Theta Kappa scholarships to traditional transfers and two to Ada Comstock Scholars. There is no financial aid available for international transfer students entering in January. There is limited aid available for international transfers entering in September, and their applications for admission, as well as aid, must be filed by February 1.

ON-CAMPUS HOUSING FOR TRADITIONAL TRANSFERS A space in one of Smith's 36 residence halls is guaranteed for each entering traditional transfer. Students may request nonresident status because of very unusual circumstances, but the option of living off-campus is not normally granted for traditional transfers due to the residential nature of the institution.

This agreement was established in April 2002 and will be reviewed periodically. Coordinators for this agreement are: Mark Broadbent, Coordinator of Transfer Affairs, at Holyoke Community College (mbroadbent@hcc.mass.edu), and Deb Shaver, Sr. Associate Director of Admission, at Smith College (dshaver@smith.edu).

The courses listed on the following pages are acceptable at Smith College for degree credit, with a grade of C or better. A comparable course with equivalent subject matter covered will not be granted subsequent credit. No credit is awarded for independent study unless approved by the department concerned (students must submit a detailed description of completed work). If the course content of any class changes after this agreement has been written, Smith College must be notified by Holyoke Community College in order to review the course and possibly revise the decision about acceptability for credit.
