Updated January 2007									
N.B. Although HCC BIO 103 is equivalent to WSC BIOL 0129, the Biology dept. has determined that the course content meets curriculum requirements in Biology for education majors.									
Note 1: JJudge will allow Education majors to receive a WSC course equivalency of MATH 0252 for HCC MAT 142. WSC MATH 0150 (or its future HCC equivalent) will be required for transfer students to complete degree requirements									
Note 2: WSC prefers that students take EDU 104 in place of PSY 215.									
Note 3: If HCC develops an equivalent course to WSC MATH 0150, that course would be added to requirements for the associate's degree and deleted from the list of outstanding requirements for the bachelor's degree.
