

## ORGANIZATION LIST, BY SERVICE

The following is a list of agencies that are accepting volunteers and the different opportunities that are available. The student is not restricted to volunteering at any of these agencies, but representatives from all of these agencies have informed the Office of Community Service Learning that they are seeking volunteers to help them in a variety of ways. We encourage the student to make the initial contact with the agency of her or his choosing. As always, all students are asked to contact the Office of Community Service Learning with any questions, comments, or concerns.

*List updated: January 2006*
