Internal Auditors' Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards	50-51

INDEPENDENT AUDITORS' REPORT

To the Board of Trustees of Holyoke Community College Holyoke, Massachusetts

Report on the Financial Statements

We have audited the accompanying financial statements of Holyoke Community College (an agency of the Commonwealth of Massachusetts) (the "College"), which comprise the statement of net position as of June 30, 2015 and the related statement of revenues, expenses and changes in net position and cash flows for the year then ended.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We did not audit the financial statements of Holyoke Community College Foundation, Inc. (the "Foundation") as discussed in Note 1. Those statements were audited by other auditors whose report has been furnished to us, and our opinion, insofar as it relates to the amounts included for, is based solely on the report of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control.

Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, based on our audits and the report of other auditors, the financial statements referred to above present fairly, in all material respects, the net position of Holyoke Community College as of June 30, 2015 and the respective changes in net position and its cash flows for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

Emphasis of a Matter

As discussed in Note 2 to the financial statements, GASB Statement No. 68, Accounting and Financial Reporting for Pensions - an amendment of GASB Statement No. 27, is effective for fiscal year 2015 and required the College to restate net position as of June 30, 2014 to recognize its proportionate share of the net pension obligation or asset determined by the State Employee's Retirement Plan. Our opinion is not modified with respect to that matter.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that management's discussion and analysis on pages 3-17, the schedule of the College's proportionate share of the net pension liability on page 47, the schedule of the College's contributions on page 48 and the notes to the required supplementary information on page 49 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated October 6, 2015, on our consideration of Holyoke Community College's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering Holyoke Community College's internal control over financial reporting and compliance.

O'Common and Drew, N.C.

Certified Public Accountants Braintree, Massachusetts

October 6, 2015

(an agency of the Commonwealth of Massachusetts)

Management's Discussion and Analysis

June 30, 2015

(Unaudited)

The following discussion and analysis provides management's view of the financial position of Holyoke Community College (the College) as of June 30, 2015 and 2014, and the results of operations for the years then ended. This analysis should be read in conjunction with the College's financial statements and notes thereto which are also presented in this document.

GSB Statement No. 68 of the Governmental Accounting Standard Board (GASB), Accounting and Reporting for Pensions establishes new standards for how governmental employers that contribute to pension plans report liabilities and plan details on their financial statements. GASB 68 requires that the Commonwealth report its unfunded pension liability on its statements of net position. As permitted by GASB 68, the Commonwealth will report its net pension liability as of 06/30/14 on the FY 15 statements. The pension plan is a cost sharing multiple-employer plan that pools retirement assets to pay benefits to any participating plan members. GASB 68 requires that pension liabilities and costs must be allocated to participating employers including Holyoke Community College. Holyoke Community College's FY 15 statements reflect the implementation of GASB 68. Please see footnote 14, on page 39.

The College is a public institution of higher education serving approximately 10,835 students, with 126 faculty and 269 staff, as well as part-time employees. The campus is located in Holyoke, Massachusetts. The College offers more than 80 programs of study leading to an associate's degree, certificate programs and noncredit programs.

Financial Highlights

- The Governor implemented a MGL Chapter 29, Section 9C reduction of \$283,175 to the college's original appropriation, and the college transferred this amount to the State Treasurer to satisfy its obligation
- At June 30, 2015, the College's asset of \$61,681,225 and deferred outflows of resources of \$561,145 exceeded its liabilities of \$22,923,404 and deferred inflows of resources of \$4,893,367 by \$34,425,599. At June 30, 2014, the College's assets, and deferred outflow of resources of \$59,983,526, exceeded its liabilities of \$26,207,188 by \$33,776,338. These resulting net assets are summarized into the following categories:

(an agency of the Commonwealth of Massachusetts)

Management's Discussion and Analysis

June 30, 2015 and 2014

(Unaudited)

	_	2015	2014 (restated)
Net invested in capital assets Restricted, expendable	\$	28,184,391 259,685	28,315,305 111,439
Unrestricted		5,981,523	5,349,594
Total net assets	\$ _	34,425,599	33,776,338

- The College's Trustees may use the unrestricted net assets to meet the College's ongoing obligations to its stakeholders. Additionally, the restricted, expendable net assets may also be expended, but only for the purposes for which the donor or grantor intended.
- The College's Trustees have designated certain unrestricted net assets for a number of purposes including: capital expansion funds; capital adaptation and renewal funds; new program funds; and long-term investment funds.
- Net Position reflect the impact of College's portion of the Commonwealth's unfunded pension liability of \$7,083,129 in FY14 and \$5,028,761 in FY15.
- The College's total net position increased by \$649,261 and \$698,313 in 2015 and 2014 respectively. In FY15 the increase is the result of investment income of \$529,928 and a capital appropriation of \$577,563, offset by operating deficits net of non-operating revenue totaling \$458,230. The FY14 increase is attributable to investment income of \$1,759,142, capital appropriation of \$299,957 offset by operating deficits net of non-operating revenue totaling \$1,360,786. The College's allocation of the Commonwealth's Pension Liability required a restatement that lowered its beginning net position for FY14 by \$6,684,692. A 7.0% rate increase in tuition and fees in FY15 was substantially offset by a 4.6% decline in enrollment. In FY 2014, a 3% increase in tuition and fees was partially offset by a 5.2% decline in credit enrollments. More information can be found in the capital assets discussion in this report and footnote 5 on page 34.

Overview of the Financial Statements

The College's financial statements comprise two primary components: 1) the financial statements and 2) the notes to the financial statements. Additionally, the financial statements focus on the College as a whole, rather than upon individual funds or activities.

(an agency of the Commonwealth of Massachusetts)

Management's Discussion and Analysis

June 30, 2015 and 2014

(Unaudited)

In May 2002, GASB issued Statement No. 39 of the Governmental Accounting Standards Board (GASB), *Determining Whether Certain Organizations are Component Units (an amendment of GASB 14)*. GASB 39 establishes new criteria for evaluating the need to include component units of the College. The College adopted GASB 39 as of July 1, 2003.

The Holyoke Community College Foundation (Foundation) is a legally separate tax-exempt component unit of Holyoke Community College. The Foundation acts primarily as a fund-raising organization to supplement the resources that are available to the College in support of its programs. The board of directors of the Foundation is self-perpetuating and primarily consists of graduates and friends of the College. Although the College does not control the timing or the amount of receipts from the Foundation, the majority of resources received or held by the Foundation are restricted to the activities of the College by the donors. Because these resources held by the Foundation can only be used for the benefit of the College, the Foundation is considered a component unit of the College and is discretely presented in the College's financial statements.

Management's Discussion and Analysis is required to focus on the College, not its component unit.

The Financial Statements

The financial statements are designed to provide readers with a broad overview of the College's finances and are comprised of three basic statements.

The Statement of Net Position presents information on all of the College's assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the College is improving or deteriorating.

The Statement of Revenues and Expenses presents information showing how the College's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g. the payment for accrued compensated absences, or the receipt of amounts due from students and others for services rendered).

The Statement of Cash Flows is reported on the direct method. The direct method of cash flow reporting portrays net cash flows from operations as major classes of operating receipts

(an agency of the Commonwealth of Massachusetts)

Management's Discussion and Analysis

June 30, 2015 and 2014

(Unaudited)

(e.g. tuition and fees) and disbursements (e.g. cash paid to employees for services). The Government Accounting Standards Board (GASB) Statements 34 and 35 require this method to be used. In accordance with GASB 39, the Foundation is not required to present the *Statement of Cash Flows*.

The financial statements can be found on pages 18-22 of this report.

Holyoke Community College reports its activity as a business-type activity using the full accrual measurement focus and basis of accounting. The College is a component unit of the Commonwealth of Massachusetts. Therefore, the results of the College's operations, its net assets and cash flows are also summarized in the Commonwealth's Comprehensive Annual Financial Report in its government-wide financial statements.

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the financial statements. The notes provide information regarding both the accounting policies and procedures the College has adopted, as well as additional detail of certain amounts contained in the financial statements. The notes to the financial statements can be found on pages 23-46 of this report.

Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of the College's financial position. The College's assets exceeded liabilities by \$34,425,599 and \$33,776,338 at the close of FY15 and FY14, respectively.

(an agency of the Commonwealth of Massachusetts)

Management's Discussion and Analysis

June 30, 2015 and 2014

(Unaudited)

	June 30			
Net Assets	2015	2014 (restated) ousands)		
Current assets Noncurrent assets	\$ 13,959 47,722	14,807 44,778		
Total assets	\$ 61,681	59,585		
Deferred outflows of resources	\$ 561	398		
Current liabilities Noncurrent liabilities	\$ 7,386 15,537	8,128 18,078		
Total liabilities	\$ 22,923	26,206		
Deferred inflows of resources	\$ 4,893			
Net position: Net investment in capital assets Restricted, expendable Unrestricted	\$ 28,184 260 5,982	28,315 112 5,350		
Total net position	\$ 34,426	33,777		

The largest portion of the College's net position reflects its investment in capital assets (e.g., land, buildings, machinery, and equipment); less any related debt used to acquire those assets that are still outstanding. In FY15, investment in capital assets totaled \$28,184,391 or 81.9% of total net assets. The College uses these capital assets to provide services to students, faculty, administration, and the community. Consequently, these assets are not available for future spending. Although the College's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities. Also, in addition to the debt noted above, which is reflected in the College's financial statements, the Commonwealth of Massachusetts regularly provides financing for certain capital projects through the issuance of general obligation bonds. These borrowings by the Commonwealth are not reflected in these financial statements.

The restricted portion of the College's net position represents resources that are subject to external restrictions on how they must be used. In FY15, restricted net assets totaled \$259,685 or 0.6% of total net assets.

(an agency of the Commonwealth of Massachusetts)

Management's Discussion and Analysis

June 30, 2015 and 2014

(Unaudited)

Not accounting for the College's allocation of the Commonwealth's Pension Liability, unrestricted net position may be used to meet the College's ongoing obligations to its stakeholders. In FY15, unrestricted net position totaled \$12,342,506 or 20.7% of total net assets. To account for the College's allocation of the Commonwealth's Pension Liability, the current year's unrestricted net assets was adjusted to \$5,981,523. The College's Trustees have determined that these funds be designated for long-term investment, capital expansion, plant adaptation and renewal and other uses (see note 9 on page 36 of this report).

The College's net assets increased \$649,261 in fiscal 2015 and \$698,313 in fiscal 2014. The schedule below provides a summary of Changes in Net Position.

	Year ended June 30

(an agency of the Commonwealth of Massachusetts)

Management's Discussion and Analysis

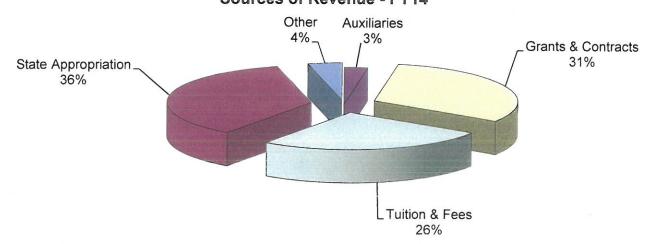

June 30, 2015 and 2014

(Unaudited)

Sources of Revenue - FY15

Sources of Revenue - FY14

(an agency of the Commonwealth of Massachusetts)

Management's Discussion and Analysis

June 30, 2015 and 2014

(Unaudited)

Revenue from all sources (excluding capital appropriations) totaled \$62,864,961 and \$63,142,099 in FY15 and FY14, respectively.

Highlights of revenue include:

- State appropriations, which include the cost of fringe benefits (excluding capital appropriations), totaled \$23,999,262 and \$22,829,133 in FY15 and FY14 respectively, and amount to 38% and 36%, of all revenue. State appropriations increased in FY15 due to additional funding formula appropriations and funding for the MCCC and AFSCME increases. In FY15, the Governor implemented a MGL Chapter 29, Section 9C reduction of \$283,165 to the College's original appropriation, and the College transferred this amount to the State Treasurer to satisfy this obligation. In FY14, the State Appropriation increased due to a new state funding formula, and the funding of impact bargaining salary increases.
- The category tuition and fees represents the largest portion of our unrestricted revenue and totaled \$23,403,789 and \$23,143,670 in FY15 and FY14, respectively. Of this amount, \$7,533,270 and \$6,928,830 are tuition and fees paid by various financial aid programs including local funds designated by the College. In Fiscal 2015 fees were increased by \$11. There were no fee increases in FY14. A 3% decline in enrollment is anticipated for the coming year and the decline is expected to be substantially offset by an \$8 Educational Service Fee increase.
- The category Grants and Contracts totaled \$19,944,269 and \$19,714,412 in FY15 and FY14 respectively, of which \$15,127,437, and \$15,330,500 was state and federal student financial aid. Grants and contracts for college programs increased in FY15 by \$592,490 and in FY14 by \$60,635.
- Auxiliary enterprises revenue is comprised principally of College bookstore operation, and is reported net of sales that are paid by financial aid. Auxiliary revenue totaled \$3,592,702, and \$3,744,995 in FY15 and FY14, respectively. Included in this amount are \$2,027,615 and \$2,080,396 in sales paid by financial aid. Sales declined \$152,293 (4.1%) from the prior year due to the continued market share increases by online retailers offering lower costs options. The decrease in sales of \$308,849 (7.6%) in FY14 was due to market share erosion.
- Other sources of revenues in this discussion include the Other Sources reported under Operating Revenues, in the Statement of Revenues and Expenses, and represents Sales and Services of Educational Departments and Commissions. In FY15, Other operating revenues amounted to \$955,896 and \$959,973 in FY14.

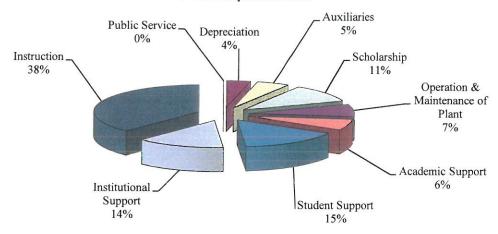

(an agency of the Commonwealth of Massachusetts)

Management's Discussion and Analysis

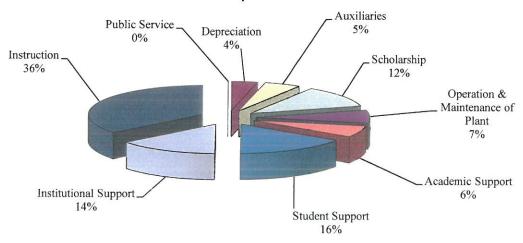

June 30, 2015 and 2014

(Unaudited)

FY15 Expenditures

FY14 Expenditures

Not including expense impact for the Commonwealth's Net Pension Liability

(an agency of the Commonwealth of Massachusetts)

Management's Discussion and Analysis

June 30, 2015 and 2014

(Unaudited)

Expenditures from all sources totaled \$62,498,376 and \$62,435,477 in FY15 and FY14, respectively.

Highlights of expenditures include:

Due to fiscal budgets constraints, the College instituted budget cuts across all departments averaging ten percent, offsetting contractual salary increases and accounting for reduced or level expenditures compared to last year. In the current year, the College had a net pension expense credit of \$323,709 resulting from the College's allocation of the Commonwealth's net Pension Liability impacting all expense categories except Scholarships and Depreciation. The following program categories were also impacted by:

- *Instruction* costs increased \$1.5 million in FY15 due to contractual salary increases, additional full time faculty, and new grant funded part time faculty positions in equal proportions. FY14 cost were level compared to FY13.
- Scholarships (payments directly to students) decreased \$713,087 in FY15 due to increased tuition and fees being paid with financial aid. In FY14, there was a modest increase of \$34,688.
- Operation and maintenance of plant increased \$314,972 in FY15, contractual salary increases accounted for two-thirds of the increase with non-capital improvements accounting for the balance. In FY14 expenses by \$456,817 due to higher energy and rental costs, increased maintenance of physical plant, and increased payroll expense.
- Institutional support decreased by \$633,869 in FY15 with lower bad debt expense accounting for a third of the decrease, and the balance due to lower costs in equipment, consulting, and general expenses. Expenses increased by \$317,965 in FY14 due to increasing the College's provision for allowances on bad debt and the result of a judgment on a lawsuit.

Expenditure classifications are defined below:

- *Instruction*—costs directly related to the classroom, i.e., faculty salaries, instructional supplies, and equipment.
- Academic support—academic computing, library, academic administration.
- Student services—Admissions, Registrar, and Financial Aid offices, as well as counseling, tutoring, interpreters and athletics.

(an agency of the Commonwealth of Massachusetts)

Management's Discussion and Analysis

June 30, 2015 and 2014

(Unaudited)

- **Scholarships**—all student aid including federal, state, and private grants, i.e., Pell, S.E.O.G., Mass State Cash Grants and Mass State Scholarship which was not used to pay tuition and fees.
- *Public services*—includes funds expended for activities established primarily to provide non-instructional service programs to individuals and groups external to the institution.
- Operation and maintenance of plant—all costs of operating and direct maintenance of the physical plant and grounds.
- *Institutional support*—President's office, business operations, development office, and all other administrative functions including campus police.
- Auxiliary—Bookstore. Because dining services is operated by a private contractor, any expenses related to this activity are categorized under Institutional Support.

Non-operating Revenues and Expenses

For non-operating revenues and expenses, the Commonwealth's unrestricted appropriation increased \$1,292,893 or 5.75% and \$2,282,765 or 11.3% in FY14. The unrestricted state appropriation is the primary funding provided by the Commonwealth to support the operation of the College. The increase in FY15 and FY14 are due to additional funding formula appropriations and funding for the MCCC and AFSCME increases.

Investment gains were \$529,928 and \$1,759,142 in FY15 and FY14, respectively.

(an agency of the Commonwealth of Massachusetts)

Management's Discussion and Analysis

June 30, 2015 and 2014

(Unaudited)

Loss from Operations

Due to the nature of public higher education, institutions incur a loss from operations. The Commonwealth's Board of Higher Education sets tuition. The College sets fees and other charges. Commonwealth appropriations to the College make up the loss from operations not covered by tuition and fees. The College, with the purpose of balancing educational and operational needs with tuition and fee revenue, approves budgets to adequately manage the operation of the institution taking into consideration such issues as physical plant maintenance, delivery of instruction and student services, long range plans, and enrollment growth.

The following schedule presents the College's incurred losses from operations for the fiscal years ended June 30, 2015 and 2014 before pension adjustment:

		Year ended June 30		
		2015	2014	
Tuition and fee revenue	\$	15,870,519	16,214,840	
Other revenue		22,465,252	22,338,984	
Operational expenses	_	(62,498,376)	(62,435,477)	
Operating loss		(24,162,605)	(23,881,653)	
Commonwealth direct appropriations, fringe benefits for employees on the Commonwealth's payroll, net of remitted				
tuition to the Commonwealth		23,999,262	22,829,133	
Other nonoperating revenues, net	_	235,041	1,450,876	
Net change before capital appropriations	\$ =	71,698	398,356	

Capital Assets and Debts of the College

Capital Assets

The College's investment in capital assets as of June 30, 2015 and 2014 amounts to \$35,665,684, and \$33,171,105, respectively, net of accumulated depreciation. This investment in capital assets includes land, buildings (including improvements), furnishings, and equipment (including the cost of capital leases). Capital assets increased by \$2,494,579 or 7.5% and decreased \$1,207,588 or 3.5% in FY14. The increase in FY15 is due to capital improvements exceeding depreciation. The decrease in FY14 is due to depreciation exceeding capital improvements in FY14.

(an agency of the Commonwealth of Massachusetts)

Management's Discussion and Analysis

June 30, 2015 and 2014

(Unaudited)

The College will use operating funds and proceeds from bond financing to invest in capital projects that enhance student services and learning. Holyoke Community College and the Holyoke Community College Foundation opened Doyle Drive in March of 2015. Doyle Drive provides the campus community access to the college from Westfield Road. The road was funded by grants received from Federal and State agencies through the Holyoke Community College Foundation. The planning process for the roadway had identified the need for the construction of a water infrastructure improvement to loop the water system of the college and thus improve the delivery system to the college. The college funded \$465,000 towards the water system upgrade and the access road.

The College has been awarded a \$3,800,000 grant from Massachusetts Center for Life Sciences to renovate 13,000 square feet of space in the Marieb building to create a Center for Life Sciences. The Center for Life Sciences is a \$4,550,000 project that will include the only clean room in Western Massachusetts to support training for students, faculty, and industry partners. The schematic design of the project began during the summer of 2015, and construction is planned to start in the Fall of 2016.

The Center of Health Education opened at the start of the Fall 2015 semester. In fiscal year 2013, the college purchased the land and building for \$1,925,000. Construction costs totaled \$4,000,000. Funding for the project has come from bond financing and gifts from the Holyoke Community College Foundation.

In August of 2015, Governor Baker announced that the state will fund \$2,500,000 for the design phase of improvements to the Campus Center. The construction will include new exterior sheathing, new windows and doors, new mechanical services, and new electrical systems. Once the campus center is completed it will house the bookstore, admissions, student activities, testing and advising services, and expanded cafeteria seating and food service area. This overall \$43,500,000 project is expected to begin in September of 2016 and last 18 to 24 months.

The Massachusetts Department of Capital Maintenance & Management (DCAMM) and Holyoke Community College is collaborating on an Accelerated Energy Program for the campus. The total cost of the project is estimated to be \$9,000,000. Holyoke Community College has pledged to reimburse DCAMM approximately \$3,000,000 of the total project cost with the funds realized from energy cost savings. The project currently includes a new energy management system, new mechanical equipment including variable air volume boxes, pump motors and related controls. The project also will include LED lighting upgrades, the installment of a wind turbine, and a hybrid solar voltaic/hot water system.

(an agency of the Commonwealth of Massachusetts)

Management's Discussion and Analysis

June 30, 2015 and 2014

(Unaudited)

All capital asset purchases are budgeted in the College's annual spending plan, which is approved by the board of trustees. Additional information about the College's capital assets can be found in note 6 on page 34 of this report.

Long-Term Liabilities

In preparation for the acquisition and renovation of the new Center for Health Education, the College borrowed \$7 million in October 2012 through the Massachusetts Development Finance Agency (MDFA). The bonds will be paid over a twenty-year period.

The College retired in FY13 the 2003 Series Bond balance of \$3,600,000 with the proceeds from the 2012 MDFA Revenue Bonds. The College carries long-term debt balances of \$8,755,000 for the 2012 series MDFA Revenue Bond, and \$1,753,391 for compensated absences and workers compensation. The accrual for compensated absences consists of the long-term portion of sick and vacation pay relating to employees on the College's payroll.

Economic Factors and Next Year's Tuition and Student Fee Rates

The Governor and Legislature continue to strive to support public higher education in Massachusetts by increasing funding to the College in FY15 by 5.75% and 11.3% in FY14. The College did not increase tuition and fees for FY14. This was made possible by Performance Incentive funding provided by the Commonwealth. Tuition and Fees were increased \$11 per credit hour for fiscal year 2015 and \$12 in FY16 in order to balance the budget. The College continues to be conservative in hiring only personnel essential for student services, purchase only necessary supplies and identify other costs savings. The college continues to investigate new ways to meet capital funding demand. The Board of Trustees approved a \$1,000,000 transfer from college reserves to set up a Capital Project Revolving Fund that is used for capital projects. Funding utilized from the revolving fund will be repaid over a 10-year period. Funds repaid to the revolving fund are utilized for additional capital projects. In FY15, the Board approved \$500,000 to upgrade five rooms to full model classrooms, upgrade technology on fifteen other classrooms, purchase furniture and make other classroom improvements The Board and administration are confident that with these initiatives, we can minimize fee increases and retain the high standard of education with affordable access for our constituencies.

(an agency of the Commonwealth of Massachusetts)

Management's Discussion and Analysis

June 30, 2015 and 2014

(Unaudited)

For fiscal year 2016 the College increased the Educational Service Fee by \$8 from \$128 per credit hour to \$136 per credit hour. The college increased per semester technology fee by \$20 from \$55 to \$75 for fiscal year 2016. The college created a Facilities Fee of \$4 per credit hour that provides a funding source for capital projects and infrastructure maintenance. The per semester Nursing/Radiology Program Fee and the Foundations of Health Fee increased by \$125 and \$50 respectively. The College increased tuition and fees by \$11 per credit hour to \$152 per credit for fiscal 2015 having maintained them unchanged for the previous two years. The College will continue to strive to make educational opportunities affordable to all who seek them while simultaneously working to raise sufficient revenues to support the mission of the institution.

Requests for Information

This financial report is designed to provide a general overview of the College's finances for all those with an interest in the College's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Office of the Vice President for Administration and Finance, Holyoke Community College, 303 Homestead Avenue, Holyoke, Massachusetts 01040.

Notes to the Financial Statements

June 30, 2015

Note 1 - Summary of Significant Accounting Policies

Organization

Holyoke Community College (the "College") is a state-supported comprehensive community college that offers a quality education leading to associate degrees in arts and sciences as well as one-year certificate programs. With its main campus located in Holyoke, Massachusetts, along with other satellite campuses, the College provides instruction and training in a variety of liberal arts, allied health, engineering technologies and business fields of study. The College also offers evening, weekend and web-based credit and noncredit courses, as well as community service programs. The College is accredited by the New England Association of Schools and Colleges.

Basis of Presentation

The accompanying financial statements have been prepared using the economic resources measurement focus and the accrual basis of accounting in accordance with the United States of America generally accepted accounting principles, as prescribed by the Governmental Accounting Standards Board (GASB).

Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements have been met. The College's policy for defining operating activities in the statement of revenues, expenses, and changes in net position are those that generally result from exchange transactions such as the payment received for services and payment made for the purchase of goods and services. Certain other transactions are reported as non-operating activities. These non-operating activities include the College's operating and capital appropriations from the Commonwealth of Massachusetts, net investment income/(loss), gifts, and interest expense.

(an agency of the Commonwealth of Massachusetts)

Notes to the Financial Statements - Continued

June 30, 2015

Note 1 - Summary of Significant Accounting Policies - Continued

Basis of Presentation - Continued

Holyoke Community College Foundation (the "Foundation") is a legally separate tax-exempt entity. The Foundation acts primarily as a fund-raising organization to supplement the resources that are available to the College in support of its programs. The Board of the Foundation is self-perpetuating and primarily consists of graduates and friends of the College. Although the College does not control the timing or the amount of receipts from the Foundation, the majority of resources received or held by the Foundation are restricted to the activities of the College by the donors. Because these resources held by the Foundation can only be used by or are for the benefit of the College, the Foundation is considered a component unit of the College and is discretely presented in the College's financial statements.

In reliance on the guidance issued by the Massachusetts Department of Higher Education, the College and its discretely presented component unit have classified the prior matching contributions from the Commonwealth of Massachusetts to the Endowment Incentive Program, as well as the underlying gift from the donor, in accordance with either the donor's original intent or this previously issued guidance. Accordingly, these amounts may be classified as restricted nonexpendable, restricted expendable, or unrestricted.

Complete financial statements for the Foundation can be obtained from Holyoke Community College Foundation, 303 Homestead Avenue, Holyoke, MA 01040.

Net Position

Resources are classified for accounting purposes into the following four net position categories:

<u>Net investment in capital assets</u>: Capital assets, net of accumulated depreciation, and outstanding principal balances of debt attributable to the acquisition, construction, repair, or improvement of those assets.

<u>Restricted - nonexpendable</u>: Net position subject to externally imposed conditions such that the College must maintain them in perpetuity.

<u>Restricted - expendable</u>: Net position whose use is subject to externally imposed conditions that can be fulfilled by the actions of the College or by the passage of time.

<u>Unrestricted</u>: All other categories of net position. Unrestricted net position may be designated by actions of the College's Board of Trustees.

(an agency of the Commonwealth of Massachusetts)

Notes to the Financial Statements - Continued

June 30, 2015

Note 1 - Summary of Significant Accounting Policies - Continued

Net Position - Continued

The College has adopted a policy of generally utilizing restricted – expendable funds, when available, prior to unrestricted funds.

Trust Funds

In accordance with the requirements of the Commonwealth of Massachusetts, the College's operations are accounted for in several trust funds. All of these trust funds have been consolidated and are included in these financial statements.

Cash and Equivalents

The College has defined cash and equivalents to include cash on hand, demand deposits, and cash and deposits held by state agencies on behalf of the College.

Cash held by DCAMM

Cash held by the Massachusetts Division of Capital Asset Management and Maintenance for specific projects.

Investments

Investments in marketable securities are stated at fair value.

Dividends, interest and net gains or losses on investments of endowments and similar funds are reported in the statement of revenues, expenses and changes in net position. Any net earnings not expended are included in net position categories as follows:

- (i) as increases in restricted nonexpendable net position if the terms of the gift require that they be added to the principal of a permanent endowment fund;
- (ii) as increases in restricted expendable net position if the terms of the gift or the College's interpretation of relevant state law impose restrictions on the current use of the income or net gains. The College has relied upon the Massachusetts Attorney General's interpretation of state law that unappropriated endowment gains should generally be classified as restricted expendable; and
- (iii) as increases in unrestricted net position in all other cases.

(an agency of the Commonwealth of Massachusetts)

Notes to the Financial Statements - Continued

June 30, 2015

Note 1 - Summary of Significant Accounting Policies - Continued

Inventories and Other Current Assets

Inventories consisting of books, publications, and supplies are stated at the lower of cost or market. Cost is determined using the first-in, first-out method. Other current assets consist of prepaid expenses.

Allowance for Doubtful Accounts

Accounts receivable are periodically evaluated for collectability based on past history with students. Provisions for losses on loans receivable are determined on the basis of loss experience, known and inherent risks in the loan portfolio, the estimated value of underlying collateral and current economic conditions.

Capital Assets

Real estate assets, including improvements, are generally stated at cost. Furnishings, equipment, and collection items are stated at cost at date of acquisition or, in the case of gifts, at fair value at date of donation. In accordance with the state's capitalization policy, only those items with a unit cost of more than \$50,000 are capitalized. Library materials are generally capitalized and amortized over a five-year period. Interest costs on debt related to capital assets are capitalized during the construction period. College capital assets, with the exception of land and construction in progress, are depreciated on a straight-line basis over their estimated useful lives, which range from 3 to 40 years. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

The College does not hold collections of historical treasures, works of art, or other items that are not inexhaustible by their nature and are of immeasurable intrinsic value, thus not requiring capitalization or depreciation in accordance with GASB guidelines.

Fringe Benefits

The College participates in the State's retirement plan and programs for fringe benefits and others, including health insurance, unemployment and pension. Health insurance, unemployment, and pension costs are billed through a fringe benefit rate charged to the College.

Compensated Absences

Employees earn the right to be compensated during absences for vacation leave and sick leave, along with compensatory time. Accrued vacation is the amount earned by all eligible employees through June 30, 2015. The accrued sick leave balance represents 20% of amounts earned by those employees with ten or more years of state service at June 30, 2015. Upon retirement, these employees are entitled to receive payment for this accrued balance.

(an agency of the Commonwealth of Massachusetts)

Notes to the Financial Statements - Continued

June 30, 2015

Note 1 - Summary of Significant Accounting Policies - Continued

Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Massachusetts State Employees' Retirement System plan ("SERS") and the additions to/deductions from SERS' fiduciary net position have been determined on the same basis as they are reported by SERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Workers' Compensation

The Commonwealth provides workers' compensation coverage to its independent agencies on a self-insured basis. The Commonwealth requires the College to record its portion of the workers' compensation in its records. Workers' compensation costs are actuarially determined based on the College's actual experience.

Student Deposits and Unearned Revenue

Deposits and advance payments received for tuition and fees related to certain summer programs and tuition received for the following academic year are unearned and recorded as revenues when earned.

Student Tuition and Fees

Student tuition and fees are presented net of scholarships and fellowships applied to students' accounts. Certain other scholarship amounts are paid directly to, or refunded to, the student and are generally reflected as operating expenses.

Tax Status

The College is an agency of the Commonwealth of Massachusetts and is therefore generally exempt from income taxes under Section 115 of the Internal Revenue Code.

Use of Estimates

The preparation of financial statements in conformity with United States of America generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the dates of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

(an agency of the Commonwealth of Massachusetts)

Notes to the Financial Statements - Continued

June 30, 2015

Note 1 - Summary of Significant Accounting Policies - Continued

New Governmental Accounting Pronouncements

Fair Value Measurement and Application-GASB Statement 72, is effective for periods beginning after June 15, 2015. This Statement requires a government to use valuation techniques that are appropriate under the circumstances and for which sufficient data are available to measure fair value. The valuation techniques should be consistent with one or more of the following approaches: the market approach, the cost approach or the income approach. Valuation methodologies should maximize the use of relevant observable inputs and minimize the use of unobservable inputs. GASB 72 establishes a hierarchy of inputs to valuation techniques used to measure fair value, which are as follows: Level 1 inputs are unadjusted quoted prices in active markets for identical assets or liabilities. Level 2 inputs are inputs, other than quoted prices, included within Level 1 that are observable, directly or indirectly. Level 3 inputs are unobservable inputs such as management's assumptions about certain factors affecting the value of the asset or liability. Management is in the process of evaluating the implementation of this Statement, but does not expect any material effect to its financial position.

Accounting and Financial Reporting for Pensions and Related Assets that are not within the Scope of GASB Statement 68, and Amendments to Certain Provisions of GASB Statements 67 and 68 - GASB Statement 73. The provisions of this Statement applicable to the College are effective for periods beginning after June 15, 2015. The purpose of these provisions is to clarify and enhance certain reporting requirements of GASB Statements 67 and 68. GASB Statement 68 is effective for the fiscal year ended June 30, 2015. Management has not yet evaluated the effects of the implementation of GASB Statement 73.

Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions - GASB Statement 75, is effective for periods beginning after June 15, 2017. This Statement replaces Statement 45, Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pension Plans and Statement 57, OPEB Measurements by Agent Employers and Agent Multiple-Employer Plans. The objective of Statement 75 is to improve accounting and financial reporting by state and local governments for postemployment benefits other than pensions ("OPEB"). It also requires additional information by state and local governmental employers about financial support for OPEB that is provided by other entities. The Statement establishes standards for recognizing and measuring liabilities, deferred outflows and inflows of resources, and expense/expenditures. GASB 75 also identifies the assumptions and methods that are required to be used to project benefit payments, discount projected benefit payments to their actuarial present value and attribute that present value to periods of employee service for defined benefit OPEB. Management has not yet evaluated the effects of the implementation of this Statement.

(an agency of the Commonwealth of Massachusetts)

Notes to the Financial Statements - Continued

June 30, 2015

Note 1 - Summary of Significant Accounting Policies - Continued

The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments - GASB Statement 76, supersedes similarly named Statement 55 and is effective for reporting periods beginning after June 15, 2015. The objective of this Statement is to identify, in the context of the current governmental financial reporting environment, the hierarchy of generally accepted accounting principles ("GAAP"). The hierarchy consists of the sources of accounting principles used to prepare financial statements of state and local governmental entities in conformity with GAAP and the framework for selecting those principles. GASB 76 reduces the GAAP hierarchy to two categories of authoritative GAAP and addresses the use of authoritative and non-authoritative literature in the event that the accounting treatment of a transaction or other event is not specified within a source of authoritative GAAP. Management is currently reviewing this pronouncement, implementation of which must be applied retroactively.

Note 2 - Implementation of Newly Effective Accounting Standard

As a result of implementing GASB Statement No. 68, Accounting and Financial Reporting for Pensions - an amendment of GASB Statement No. 27, the College has restated net position in the statement of net position by \$6,684,692 as of June 30, 2014. The prior period restatement of net position reflects the recognition of a net pension liability as of June 30, 2014, as required by the application of GASB 68.

	As Pre	viously		
	Reported		Restated	
As of June 30, 2014:	\$ -			
Deferred outflow of resources	\$	-	\$	398,437
Net pension liability			,	7,083,129
Unrestricted net position	12,0	34,286	:	5,349,594

Note 3 - Cash and Investments

Deposits and investments consist of the following at June 30, 2015:

\$	3,678,008
	27,078
-	3,705,086
	4,165,602
	8,021,208
	12,186,810
\$	15,891,896
	\$

(an agency of the Commonwealth of Massachusetts)

Notes to the Financial Statements - Continued

June 30, 2015

Note 3 - Cash and Investments - Continued

Concentration of Credit Risk

The College places no limit on the amount it may invest in any one issuer. The following investments represent more than 5 percent of the College's investments as of June 30, 2015:

Common Fund:

Multi-Strategy Bond Fund	31.1%
Multi-Strategy Equity Fund	26.8%
Core Equity Fund	30.9%

Eaton Vance:

Equities 6.8%

As a means of limiting the College's exposure to interest rate risk, the College diversifies its investments by security type and limits holdings in any one type of investment with any one issuer. The College coordinates its investment maturities to closely match cash flow needs.

Custodial Credit Risk

Custodial credit risk is the risk that, in the event of a bank failure, the College's deposits might not be recovered. Some banking institutions that hold the College's funds, obtained specific depository insurance to mitigate the College's credit risk associated with funds deposited in excess of Federally insured limits. At June 30, 2015 the carrying amount of the College's deposits of \$3,809,066 was not exposed to custodial credit risk as uninsured and uncollateralized.

Investment Policy

In accordance with Chapter 15A of the Massachusetts General Laws, the Board of Trustees has adopted an investment policy that applies to locally held funds that are not appropriated by the state legislature or derived from Federal allocations. The principal objectives of the investment policy are: (1) preservation of capital and safety of principal, (2) minimizing price volatility, (3) liquidity, (4) return on investment, and (5) diversification. The Board of Trustees will support the investment of trust funds in a variety of domestic and international vehicles, including bank instruments, equities, bonds, government and commercial paper of high quality and mutual funds holding any or all of the above. The Board will, from time to time, establish investment fund ceilings and broad asset allocation guidelines, and delegates to the President or his designee the authority to determine the exact dollar amounts to be invested within those established limits and guidelines.

Operating Leases

The College leases classrooms and office space for its Ludlow and Intermodal campuses and also leases office equipment under operating leases. Rental expense for operating leases was \$159,011 for the year ended June 30, 2015. The following schedule summarizes future minimum payments under non-cancelable leases as of June 30, 2015:

Years Ending	Operating
June 30,	Leases
2016	\$ 161,661
2017	135,227
2018	116,910
2019	111,032
2020-2021	120,156
	\$ 644,986

Bond Payable

In October 2012, the College borrowed \$10,300,000 in a bond issue (Series 2012) through the Massachusetts Development Finance Agency (MDFA). The proceeds were used to finance the purchase and renovation of a new building; and to refund the remaining \$3,300,000 of the Series 2003 bond. The bonds are payable annually commencing on November 1, 2013 through 2032 in principal repayment amounts of \$515,000. Interest is payable semi-annually (November 1 and May 1) at a predetermined fixed rate of 3.08% through 2022, at which time a recalculation, based on the Federal Home Loan Bank Rate, will fix the rate for the remainder of the term of the bond. The refunding of the Series 2003 did not result in an economic gain or loss to the College.

(an agency of the Commonwealth of Massachusetts)

Notes to the Financial Statements - Continued

June 30, 2015

Note 7 - Long-Term Liabilities - Continued

Bond Payable - Continued

As of June 30, 2015, principal and interest payments on bonds payable for the next five years and in subsequent five-year periods are as follows:

]	Principal	Interest*
Fiscal year ending June 30,:			
2016	\$	515,000	\$ 282,255
2017		515,000	265,424
2018		515,000	249,342
2019		515,000	233,260
2020		515,000	217,750
2021-2025		2,575,000	845,048
2026-2030		2,575,000	442,814
2031-2032		1,545,000	 72,613
	\$	9,270,000	\$ 2,608,506

^{*}Based on current 3.08% interest rate.

Note 8 - Deferred Inflows of Resources

During 2015, the College received a \$3,000,000 grant from the Massachusetts Life Science Center, a state funded investment agency, to assist with the construction costs of the College's new Center for Health Sciences. As of year-end none of the proceeds have been used, and are currently held by DCAMM for future use. As prescribed in GASB Statement 33 – Accounting and Financial Reporting for Nonexchange Transactions, since all eligibility requirements have been met apart from use on the construction of the facility, the funds are reported as a deferred inflow of resources.

Note 9 - Restricted Net Position

The College is the recipient of funds that are subject to various external constraints upon their use, either as to purpose or time and are restricted for instructional, department and scholarship purposes.

The Foundation's restricted – nonexpendable net position consists of endowment funds to be held in perpetuity, whose income is mainly used for various scholarships and program support.

(an agency of the Commonwealth of Massachusetts)

Notes to the Financial Statements - Continued

June 30, 2015

Note 10- Unrestricted Net Position

The College's Board of Trustees has designated the College's unrestricted net position at June 30, 2015 for the following purposes:

Long-term investment	\$ 1,753,391
Completion of projects started in current fiscal year and subsequent fiscal year adaptation and renewal budgeted	
expenses	500,000
Purpose of developing new academic programs, providing state-of-the-art equipment and technology for renovation and construction of college facilities and to insure fiscal stability.	 3,728,132
	\$ 5,981,523

Note 11 - Contingencies

Various lawsuits are pending or threatened against the College, which arose from the ordinary course of operations. In the opinion of management, no litigation is now pending or threatened that would materially affect the College's financial position.

The College receives significant financial assistance from federal and state agencies in the form of grants. Expenditures of funds under these programs require compliance with the grant agreements and are subject to audit. Any disallowed expenditures resulting from such audits become a liability of the College. In the opinion of management such adjustments, if any, are not expected to materially affect the financial condition of the College.

The College participates in the Massachusetts College Savings Prepaid Tuition Program (the "Program"). Individuals pay into the Program in advance for future tuition at the cost of tuition at the time of election to participate, increased by changes in the Consumer Price Index plus 2%. The College is obligated to accept from the Program as payment of tuition the amount determined by this Program without regard to the standard tuition rate in effect at the time of the individual's enrollment at the College. The effect of this program cannot be determined as it is contingent on future tuition increases and the Program participants who attend the College.

(an agency of the Commonwealth of Massachusetts)

Notes to the Financial Statements - Continued

Notes to the Financial Statements - Continued

June 30, 2015

Note 14 - Pensions

Defined Benefit Plan Description

The College makes contributions for employees paid by state appropriations through a benefit charge assessed by the Commonwealth. Such pension expense amounted to \$1,941,570 for the year ended June 30, 2015. Employees, who contribute a percentage of their regular compensation, fund the annuity portion of the retirement System. Annual covered payroll was approximately 77% of total related payroll for fiscal year end 2015.

Certain employees of the College participate in a cost-sharing multiple-employer defined benefit pension plan – the Massachusetts State Employees' Retirement System – administered by the Massachusetts State Board of Retirement (the "Board"), which is a public employee retirement system (PERS). Under a cost-sharing plan, pension obligations for employees of all employers are pooled and plan assets are available to pay the benefits through the plan, regardless of the status of the employers' payment of its pension obligations to the plan. The plan provides retirement and disability benefits and death benefits to plan members and beneficiaries.

The Massachusetts State Employees' Retirement System does not issue a stand-alone financial statement.

Benefit Provisions

SERS provides retirement, disability, survivor and death benefits to members and their beneficiaries. Massachusetts General Laws (MGL) establishes uniform benefit and contribution requirements for all contributory PERS. These requirements provide for superannuation retirement allowance benefits up to a maximum of 80% of a member's highest three-year average annual rate of regular compensation. For employees hired after April 1, 2012, retirement allowances are calculated based on the last five years or any five consecutive years, whichever is greater in terms of compensation. Benefit payments are based upon a member's age, length of creditable service, and group creditable service, and group classification. The authority for amending these provisions rests with the Legislature.

Members become vested after ten years of creditable service. A superannuation retirement allowance may be received upon the completion of twenty years of service or upon reaching the age of 55 with ten years of service. Normal retirement for most employees occurs at age 65; for certain hazardous duty and public safety positions, normal retirement is at age 55. Most employees who joined the system after April 1, 2012 cannot retire prior to age 60.

(an agency of the Commonwealth of Massachusetts)

Notes to the Financial Statements - Continued

June 30, 2015

Note 14 - Pensions - Continued

Contributions

The SERS' funding policies have been established by Chapter 32 of the MGL. The Legislature has the authority to amend these policies. The annuity portion of the SERS retirement allowance is funded by employees, who contribute a percentage of their regular compensation. Costs of administering the plan are funded out of plan assets.

Member contributions for SERS vary depending on the most recent date of membership:

<u>Hire Date</u>	Percentage of Compensation		
Prior to 1975	5% of regular compensation		
1975-1983	7% of regular compensation		
1984 to 6/30/1996	8% of regular compensation		
7/1/1996 to present	9% of regular compensation except		
, -	for State Police which is 12% of		
	regular compensation		
1979 to present	An additional 2% of regular		
	compensation in excess of \$30,000		

The College is required to contribute at an actuarially determined rate; the rate was 10.39% of annual covered payroll for the fiscal year ended June 30, 2015. The College contributed \$504,616 for the fiscal year ended June 30, 2015 equal to 100% of the required contributions for each year.

<u>Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources</u>

At June 30, 2015, the College reported a liability of \$5,028,761 for its proportionate share of the net pension liability related to its participation in SERS. The net pension liability was measured as of June 30, 2014, the measurement date, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of January 1, 2014 rolled forward to June 30, 2014. The College's proportion of the net pension liability was based on its share of the Commonwealth of Massachusetts' collective pension amounts allocated on the basis of actual fringe benefit charges assessed to the College for the fiscal year 2014. The Commonwealth's proportionate share was based on actual employer contributions to the SERS for fiscal year 2014 relative to total contributions of all participating employers for that fiscal year. At June 30, 2014, the College's proportion was 0.074%.

(an agency of the Commonwealth of Massachusetts)

Notes to the Financial Statements - Continued

June 30, 2015

Note 14 - Pensions - Continued

<u>Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources – Continued</u>

For the year ended June 30, 2015, the College recognized a pension expense of \$180,907. At June 30, 2015, the College reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

Deferred Outflows of Resources

Contributions subsequent to the measurement date	\$ 504,61	6
Change in plan investment assumptions	56,52	9
Total	\$ <u>561,14</u>	<u>5</u>
Deferred Inflows of Resources		
Net difference between projected and actual earnings on pension plan investments	\$ 1,032,14	7
Change in proportion	_861,220	0
Total	\$ 1,893,36	7

Contributions of \$504,616 are reported as deferred outflows of resources related to pensions resulting from the College contributions in fiscal year 2015 subsequent to the measurement date will be recognized as a reduction of the net pension liability for the year ended June 30, 2016. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized as reductions in pension expense as follows:

Years Ending June 30,	
2016	\$ 436,858
2017	436,858
2018	436,858
2019	436,848
2020	<u>89,406</u>
Total	\$ <u>1,836,838</u>

(an agency of the Commonwealth of Massachusetts)

Notes to the Financial Statements - Continued

June 30, 2015

Note 14 - Pensions - Continued

Actuarial Assumptions

The total pension liability was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	3.00%
Salary increases	3.50% to 9.00%
Investment rate of return	8.00%

Mortality rates were based on pre-retirement of RP-2000 Employees table projected 20 years with Scale AA (gender distinct) and post-retirement of Healthy Annuitant table projected 15 years with Scale AA (gender distinct).

The actuarial assumptions used in the January 1, 2014 valuation rolled forward to June 30, 2014 and the calculation of the total pension liability at June 30, 2014 were consistent with the results of actuarial experience study performed as of January 1, 2014.

Investment assets of SERS are with the Pension Reserves Investment Trust (PRIT) Fund. The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future rates of return are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future rates of return by the target asset allocation percentage. Best estimates of geometric rates of return for each major asset class included in the PRIT Fund's target asset allocation as of June 30, 2014 are summarized in the following table:

		Long-Term Expected
Asset Class	Target Allocation	Real Rate of Return
Global Equity	43%	7.20%
Core Fixed Income	13%	2.50%
Hedge Funds	10%	5.50%
Private Equity	10%	8.80%
Real Return	10%	6.30%
Value Added Fixed Income	10%	6.30%
Timber/Natural Resources	4%	5.00%
	100%	

(an agency of the Commonwealth of Massachusetts)

Notes to the Financial Statements - Continued

June 30, 2015

Note 14 - Pensions - Continued

Discount Rate

The discount rate used to measure the total pension liability was 8.0%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rates and the Commonwealth's contributions will be made at rates equal to the difference between actuarially determined contributions rates and the member rates. Based on those assumptions, the net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Net Pension Liability to changes in the Discount Rate

The following table illustrates the sensitivity of the net pension liability calculated using the discount rate of 8.0 percent as well as what the net pension liability would be if it were calculated using a discount rate that is one-percentage-point lower or one-percentage-point higher than the current rate.

Current Discount				
1.00% Decrease (7.00%)	Rate (8.00%)	1.00% Increase (9.00%)		
\$ 7,280,221	\$ 5,028,761	\$ 3,096,194		

Note 15 - Fringe Benefits Provided by State

Fringe Benefits

The College participates in the Commonwealth's Fringe Benefit programs, including active employee and post-employment health insurance, unemployment, pension, and worker's compensation benefits. Health insurance and pension costs (described in the subsequent paragraph) for active employees and retirees are paid through a fringe benefit rate charged to the College by the Commonwealth and currently the liability is borne by the Commonwealth, as are any effects on net position and the results of current year operations, due to the adoption of GASB Statement No. 45, Accounting and Financial Reporting by Employers for Post-Employment Benefits Other than Pensions.

(an agency of the Commonwealth of Massachusetts)

Notes to the Financial Statements - Continued

June 30, 2015

Note 15 - Fringe Benefits Provided by State - Continued

Fringe Benefits - Continued

The Commonwealth is statutorily responsible for the pension benefit of the College's employees who participate in the Massachusetts State Employees' Retirement System (the "Retirement System"). The Retirement System, a single employer defined benefit public employee retirement system, is administered by the State.

In addition to providing pension benefits, under Chapter 32A of the Massachusetts General Laws, the Commonwealth is required to provide certain health care and life insurance benefits for retired employees of the Commonwealth, housing authorities, redevelopment authorities, and certain other governmental agencies. Substantially all of the Commonwealth's employees may become eligible for these benefits if they reach retirement age while working for the Commonwealth. Eligible retirees are required to contribute a specified percentage of the health care benefit costs, which is comparable to contributions required from employees. The Commonwealth is reimbursed for the cost of benefits to retirees of the eligible authorities and non-state agencies.

Group Insurance Commission

The Commonwealth's Group Insurance Commission (GIC) was established by the Legislature in 1955 to provide and administer health insurance and other benefits to the Commonwealth's employees and retirees, and their dependents and survivors. The GIC also covers housing and redevelopment authorities' personnel, certain authorities and other offline agencies, retired municipal teachers from certain cities and towns and a small amount of municipalities as an agent multiple employer program, accounted for as an agency fund activity of the Commonwealth, not the College.

The GIC administers a plan included within the State Retirement Benefits Trust Fund, an irrevocable trust. Any assets accumulated in excess of liabilities to pay premiums or benefits or administrative expenses are retained in that fund. The GIC's administrative costs are financed through Commonwealth appropriations and employee investment returns. The Legislature determines employees' and retirees' contribution ratios.

(an agency of the Commonwealth of Massachusetts)

Notes to the Financial Statements - Continued

June 30, 2015

Note 15 - Fringe Benefits Provided by State - Continued

Group Insurance Commission - Continued

The GIC is a quasi-independent state agency governed by an eleven-member body (the "Commission") appointed by the Governor. The GIC is located administratively within the Executive Office of Administration and Finance and is responsible for providing health insurance and other benefits to the Commonwealth's employees and retirees and their survivors and dependents. During the fiscal year ended June 30, 2015, the GIC provided health insurance for its members through indemnity, PPO, and HMO plans.

The GIC also administers carve-outs for pharmacy, mental health, and substance abuse benefits for certain of its health plans. In addition to health insurance, the GIC sponsors life insurance, long-term disability insurance (for active employees only), dental and vision coverage (for employees not covered by collective bargaining), retiree discount vision and dental plans, and a pre-tax health care spending account and dependent care assistance program (for active employees only).

Note 16 - Massachusetts Management Accounting and Reporting System

Section 15C of Chapter 15A of the Massachusetts General Laws requires Commonwealth Colleges and Universities to report activity of campus based funds to the Comptroller of the Commonwealth on the Commonwealth's Statewide Accounting System, Massachusetts Management Accounting and Reporting System (MMARS) on the statutory basis of accounting. The statutory basis of accounting is a modified accrual basis of accounting and differs from the information included in these financial statements. Management believes the amounts reported on MMARS meet the guidelines of the Comptroller's *Guide for Higher Education Audited Financial Statements*.

A reconciliation between the College and MMARS as of June 30, 2015 is as follows (unaudited):

Revenue per MMARS

\$ 47,829,948

Revenue per College

\$ 47,829,948

(an agency of the Commonwealth of Massachusetts)

Notes to the Financial Statements - Continued

June 30, 2015

Note 17 - Pass-Through Grants

The College distributed \$7,701,239 for the year ended June 30, 2015 for student loans through the U.S. Department of Education Federal direct lending program. These distributions and related funding sources are not included as expenses and revenues or as cash disbursements and cash receipts in the accompanying financial statements.

(an agency of the Commonwealth of Massachusetts)

Notes to the Required Supplementary Information

For the Year Ended June 30, 2015

(Unaudited)

Note 1 - Change in Assumptions

Changes in assumptions about future economic or demographic factors and inputs resulted in additional plan wide pension expense of \$102 million dollars to be charged to income over an amortization period of 5.5 years beginning with the fiscal year ended 2015. The unamortized portion of the change is reported as a deferred outflow of resources in the statement of net position. The College proportionate share of the net pension liability and the results of changes in assumptions is .068%, as shown on the Schedule of Proportionate Share of Net Pension Liability, and represent the relationship of contributions made by the College to total contributions by all participating State Agencies.

The College's portion of these amounts is as follows:

Changes in assumptions	•	69,091
Recognized in current year pension expense		12,562
Deferred outflow of resources		56,529

Independent Auditors' Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards

To the Board of Trustees of Holyoke Community College Holyoke, Massachusetts

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Holyoke Community College (the "College"), which comprise the statement of net position as of June 30, 2015 and the related statement of revenues, expenses and changes in net position, and cash flows for the year then ended, and the related notes to the financial statements, which collectively comprise Holyoke Community College's basic financial statements and have issued our report thereon dated October 6, 2015.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Holyoke Community College's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the College's internal control. Accordingly, we do not express an opinion on the effectiveness of the College's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Holyoke Community College's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
