Registration

As the instructor for the above listed course, I certify that:

- The projects are being undertaken for the specific purpose of teaching students how to conduct research.
- Students will complete one of the online courses in human subjects protection listed in the HCC IRB Guidelines OR will receive in-course training on the IRB and ethical issues.
- I will approve all projects and ensure that there is no more than minimal risk to participants.
- Research will be conducted in accordance with standard research practice and ethical standards of the relevant discipline.
- All documentation will identify the research as being part of a class project.
- Data collected from these projects will not be publicly disseminated.
